We want to start more Sunday schools, and do more community Bible study with young university students. Our target is to prepare our kids so they can understand about the Bible, about Jesus Christ, and about salvation. If they can be a faithful church member, they will be the leader in the church and the community in the future.” Darpan*, Bangladesh

“Even in difficult circumstances, believers continued to get together, serve and support one another.

We are still alive, and our partners are alive. They don’t give up wherever they are. They just witness, bring the Gospel, even under a bamboo tent. I have been praying that out of this crisis, difficulty, fear, suffering, that we should not give up. I encourage people, because we thought this war would be finished within a few months or years, but this does not happen. Instead of waiting and praying, just do and pray.” Thang*, Myanmar
