The toilets and shower project for gypsy teenage girls and women is progressing beautifully. It represents dignity, privacy, and hope. It is a safe secure space where women and girls can shower and use the restroom without fear, shame, or danger. This small structure carries a big promise for a better and safer future. 14 Saturday · Thankfulness for New & Growing Projects · India

Praise God for progress toward computer training for underprivileged students in central India.

In May, computers were installed for the project, building on pastor Joshua's earlier adult-literacy work and free coaching for children. Thank God for his continuing commitment to these families, and pray the training serves students well.
